Dear Ms. D'Anne,

The City Government Recycling Program would like to applaud you on your waste reduction efforts. The program you have established at the Department of Human Services serves as an example to the rest of City Government on how much one person can accomplish. You have inspired enthusiasm with your unique perspective and ideas. I have appreciated our joint recycling projects and your invaluable recommendations.

To show our support for your work, the City Government Recycling Program was prepared to supply you with a new computer since you currently have none. However, I have since learned from you that the Department of Human Services does intend to provide you with a computer in the near future. If another opportunity arises which would assist you in your recycling related efforts, the City Government Recycling Program would be happy to work with you to provide you with necessary funds.

The City Government Recycling Program also intends to conduct a workshop for City Government recycling coordinators in the spring of this year. We hope that you will participate in the workshop.

Sincerely,

Cybele Chang
City Government Recycling Coordinator
